Program**

# Polar Bear Adventure

Welcome to the land of white whales, wolves, caribou, moose and the world largest terrestrial predator, the **polar bear**!

Perched on the shores of the Hudson Bay, one of the most pristine wilderness areas awaits us. Experience **Churchill, the Polar Bear Capital of the World**, which boasts close encounters with these amazing animals thanks to its location on the bear's annual migratory route to Hudson Bay from the Arctic tundra. This area is one of the few human settlements where polar bears can be observed in the wild.

Unique local tundra vehicles, designed to move smoothly over ice and snow take us into the land of the “**Lords of the Arctic**”, which gather along the shores of the water, waiting for the ice to freeze.

Imagine staying at an **intimate remote lodge** at one of the best locations on Earth to view and photograph polar bears - this unique thrilling experience is an adventure of a life time.

# Itinerary
